Education

University of Michigan, Ann Arbor

Sep 2015 - Present

PhD Candidate, Electrical Engineering and Computer Science

Advised by Jeffrey Fessler and Yuni Dewaraja

Inha University

Feb 2006 - Aug 2012

Bachelor of Science in Electrical Engineering

Research Interest

Quantitative image reconstruction for emission tomography; medical image analysis; inverse problem; convex optimization; machine learning

Journal Papers

Research and Work Experience

University of Michigan August 2016 - Present
Advised by Prof. Jeffrey Fessler and Prof. Yuni Dewaraja
 Medical imaging research, including projects on image reconstruction methods for emission tomography.

University of Michigan May 2016 - August 2016
Advised by Prof. Chenliang Xu
 Computer vision research, including projects on variants of LSTM and video understanding.

Qualcomm Internship Feb - Jun 2015
Computer Vision Group, Corporate Research & Development
 Built datasets and evaluated Snapdragon computer vision engine. Investigated the feasibility of Snapdragon computer vision engine's new features. Analyzed competitors computer vision applications. Wrote one patent draft for internal patent competition.

Samsung Electronics Associate Jul 2012 - Mar 2014
Technology Planning Group, Strategic Planning Team, System LSI Division
 Established R&D roadmaps of video compression, network on chip and software solutions. Examined the necessity of license/royalty payment when adopting software solutions. Performed competitor analysis on their research areas. Managed technology transfer progress between Samsung Electronics divisions. Prioritized R&D project plans according to necessity, resources and profits

Samsung Electronics Internship Dec 2011 - Feb 2012
Technology Planning Group, Strategic Planning Team, System LSI Division
 Assisted industry-university collaboration by drafting interim reports. Researched rival companies' manufacturing processes. Assessed Korean minor companies' capability for outsourcing relevant technologies

Korean Air Force Sergeant Jul 2009 - Aug 2011
Avionics Maintenance Battalion
 Embedded security code for the identification check in aircraft avionic system.

Relevant Coursework and Skills

Coursework (UMich): •Machine Learning •Nonlinear Programming •Matrix Methods for Signal Processing and Machine Learning •Foundations of Computer Vision •Advanced Topics In Computer Vision •Image Processing •Probability and Random Processes •Estimation, Filtering, and Detection •Medical Imaging •Optimization Methods in Statistics

MOOC: •Neural Networks and Deep Learning •Improving Deep Neural Networks: Hyperparameter tuning, Regularization and Optimization •Structuring Machine Learning Projects •Convolutional Neural Networks

Programming Language: Matlab, Python, C++

Deep Learning frameworks: TensorFlow, PyTorch, Caffe

Course Projects

High Dynamic Range Image Tone Mapping Using a Local Edge-Preserving Multiscale Decomposition Report

Image Processing, Prof. Jeff Fessler

Winter 2016

Proposed the joint base-detail decomposition by considering additional constraints on detail layers.

Image Captioning Using Attention Based Recurrent Neural Networks Report

Advanced Topics in Computer Vision, Prof. Jason Corso

Winter 2016

Proposed to exploit the spatial transformer network and gated recurrent network for image captioning.

Critiques and Implementation on Recent Image Captioning Methods Report

Foundations of Computer Vision, Prof. Jason Corso

Fall 2015

Reproduced the method in "Deep visual-semantic alignments for generating image descriptions" published in CVPR 2015.

Awards & Scholarships

IEEE NSS/MIC Trainee Grant 2017, 2018

Rackham Conference Travel Grant 2016, 2017, 2018

Awarded Second Place, EECS 556: Image Processing Article Apr 2016

Awarded Scholarship for High Score on TOEIC Fall 2011

Awarded First Place Prize at Control System Design Contest Fall 2008

Awarded Scholarship from School of Logistics Spring 2007

Awarded Semester High Honors Spring, Fall 2006

Extracurricular Activities

Intervarsity Christian Fellowship

2006 - 2008, 2015 - 2017

Soccer, Music Composition
